## Descriptions of Labels

CE mark of conformity

FCC mark of conformity

RCM mark of conformity

Do not dispose of the device together with household waste.

## CE DECLARATION OF CONFORMITY

- The product conforms to RF specifications and technical standards.
- The device complies with DOC declaration.
- The device meets the basic requirements and other relevant provisions of 2014/53/EU directive.
- The device is allowed to be used in all EU member states.
- Hereby, [SolaX Power Network Technology (Zhejiang) Co., Ltd.] declares that the radio equipment type [Pocket WiFi+LAN] is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: <https://www.solaxpower.com/uploads/file/20240809/Pocket%20WiFi+LAN%20CE%20Declaration.pdf>

## FCC RULES

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and  
(2) This device must accept any interference received, including interference that may cause undesired operation.  
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## FCC RULES

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## Packing List

Dongle main  
body x 1

Document

Waterproof  
connector x 1

Dongle back cover  
x 1

M2.5 cross screw  
x 2

## Installation Tools

Torque screwdriver  
(Phillips head: M2.5)

Crimping tool for  
RJ45 terminal

## Installation

### Installation steps

#### WARNING!

- Ensure that all power has been turned off at least 5 minutes prior to installation.

This product is equipped with two kinds of communication modes (Wi-Fi or LAN). Users can choose based on actual needs.

## • Wi-Fi Mode

### Installation steps

Step 1: Assemble the Pocket WiFi+LAN (for WiFi+LAN in boxes);

Step 1: Assemble the Pocket WiFi+LAN (for WiFi+LAN in bags);

Step 2: Plug the Pocket WiFi+LAN to the inverter.

## Installation requirements

For Wi-Fi mode, the longest connection distance between the router and the equipment should be no more than 100 meters; if there is a wall between the router and the equipment, the longest connection distance is 20 meters.

### NOTICE!

- When the Wi-Fi signal is weak, please install a Wi-Fi signal booster at the appropriate location.

## • LAN mode

Step 1: Disassemble the waterproof connector into components 1, 2, 3 and 4 ; Component 1 is not used for LAN Mode. Keep it in a safe place.

Step 2: Mount the component 4 to the dongle back cover;

Step 3: Thread the network cable through the following components (2-3-5);

Step 4: The male RJ45 of network cable connects to the female RJ45 on the dongle. Then connect them to the home router.; (a "Click" will be heard if it is successfully connected) Another side of the network cable connects to home router. Make sure the home router is in good condition;

Step 5: Clockwise tighten the components (5-3-2) of Pocket WiFi+LAN in sequence;

#### NOTICE!

- Refer to "Wi-Fi Mode" for connection steps on the inverter.

#### Wi-Fi Configuration
